

Fiche produit relative aux qualités et caractéristiques environnementales

Pour obtenir des informations sur les qualités et caractéristiques environnementales d'un produit, recherchez-le via son code-barre (Gencod) ou via la référence indiquée sur son étiquetage.
Pour traiter les données par un système de traitement automatisé sous une forme agrégée, il existe des logiciels permettant d'exploiter les données d'un document pdf.

(*) Les informations relatives à l'éventuelle présence de substances dangereuses ou de perturbateurs endocriniens peuvent être obtenues via l'application Scan4chem (à télécharger sur votre téléphone portable ou votre tablette).

Maj : 02/05/2024																						
Nom du produit	Marque	Gencod ou référence produit	Emballage							Produit												
			Incorporation de matière recyclée	Compostabilité	Possibilités de réemploi	Recyclabilité	Présence de substances dangereuses ou de perturbateurs endocriniens	Primes (éco-modulations)	Pénalités (éco-modulations)	Indice de réparabilité / durabilité	Recyclabilité	Incorporation de matière recyclée	Présence de métaux précieux (or, argent, platine et palladium)	Présence de terres rares (scandium, yttrium, lanthane, cérium, praséodyme, néodyme, prométhium, europium)	Présence de substances dangereuses ou de perturbateurs endocriniens	Primes (éco-modulations)	Pénalités (éco-modulations)	Présence de fibres microplastiques	Textile d'habillement ou linge de maison			Date de l'information
																			Tissage/tricotage	Teinture/impression	Confection
